

Al Wahda towers are conveniently located in downtown area in UAE capital Abu Dhabi. Next to Al Wahda Mall, the iconic landmark and shopping destination, the towers are part of commercial and residential complex with Grand Millenium hotel.

Freyssinet scope was to design, supply and install the Post Tensioning system for around 146,000m² of slabs. The project started in February 2008 and was successfully completed in March 2009. During this period, Freyssinet delivered around 683T of Post Tensioning cables. The project was executed using Freyssinet Mono-strand system.
