

One of the most prestigious hotels in Dubai – Atlantis the Palm, launched AMSA (Atlantis management and Staff accommodation) in 2007 with a goal of continually developing a community-led environment for its employees.

Located in Jumeirah Village Circle in Dubai, it a home to more than 3000 Atlantis team members and their families.

Freyssinet scope was to design, supply and install the Post Tensioning system for around 105,000m² of slabs. The project started in October 2007 and was successfully completed in January 2009. During this period, Freyssinet delivered around 450T of Post Tensioning cables. The project was executed using Freyssinet Mono-strand system.
