

After Qatar has been awarded the world cup in 2020, it has begun a race with the time to fulfill the demand in properties sector, and it has started its plans to build more hotels and service buildings.

MKH office tower is located in luxurious Lusail Marina, new prestigious Doha district 15km for the city centre. It consists of basement level, two ground levels, 4 podiums and 27 floors with a total of 38,326 m² of post-tensioned slabs.

Freyssinet scope is design, supply and supervision and the structural layout of the slab is flat slab with a mono-strand system.
